Dice Addition 4-in-a-row

You will need:

- 2 dice
- 1 set of 13 red counters
- 1 set of 13 blue counters

The aim of the game is to be the first to get four of your own counters in a row.

Roll the dice and add the numbers together.

Place a counter on that number. Take it in turns until you have 4-in-a-row or the board fills up.
